## ACCENT HATCH – IT JUST MAKES SENSE

---

Style. Technology. Safety. It is easy to see why the Accent Hatch is such a head-turning compact car. With all the features to meet your needs and the latest technology to enhance your driving experience, it is clear that this is a hatchback offering you all the essentials. It just makes sense.

## SPACIOUS INTERIOR 370L BOOT CAPACITY & 60/40 REAR SPLIT

---

The Accent Hatch comes with an impressive luggage storing capacity. It offers 370 litres of boot capacity which is big enough to hold your average luggage requirements. With the added flexibility of 1 345 Litres of luggage capacity when the rear seats of the Accent Hatch are fully folded – you can transport all your gear with ease. You will never have to say “no” to another adventure.

## INTEGRATED BLUETOOTH & STEERING WHEEL CONTROLS

---

Staying in touch means being able to talk to your friends and colleagues whenever you want to. With Bluetooth functionality on the Accent Hatch, you can make and receive phone calls hands-free through the car's stereo system, keeping you safe and keeping things convenient.

## CLEVER REAR PARKING ASSIST

---

For safer parking and reversing, sensors are mounted in the rear bumper of the Accent Hatch to detect any unseen dangers. If you get too close, the rear park assist will issue an alert – warning you of the danger.

## SUPER SAFETY 6 AIRBAGS & UNIBODY CONSTRUCTION

With 6 airbags standard in the Accent Hatch, Hyundai has taken an uncompromising approach to safety. With the dual front airbags, front seat side impact airbags and side curtain airbags, you can drive with absolute confidence, knowing that you and your passengers are safe. Your protection is bolstered by a firm high-tensile steel safety cage around the passenger cell. This gives the suspension a more stable base, which enables precise handling. It also allows for tighter gaps between the body panels – thereby reducing wind and road noise.

## ABS WITH EBD

The Anti-Lock Braking System (ABS) employs advanced control systems to prevent the brakes from locking up and losing directional stability. The Electronic Brake Force Distribution (EBD) balances the braking force at each wheel to help you maintain control during sudden braking. With the Accent Hatch, you can brake with composure each and every time.

## 16" ALLOYS WHEELS

The Accent Hatch comes with 16" alloys which gives the Accent Hatch an attractive and modern look. For your convenience and safety – there is a full size spare wheel, which is located in the rear of the vehicle, in case of emergencies.

SPECIFICATIONS
