# H-100 BAKKIE

## THE H-100 BAKKIE. IT LOVES TO WORK

The Hyundai H-100 will redefine your expectations of a light truck. It's tough and versatile enough to match almost every challenge, no matter how large or small your undertaking. It's compact enough to cope with limited spaces, but with a payload and crew capability usually confined to much larger vehicles. The Hyundai H-100 sets a whole new standard of refinement and practicality.

## A TOUGH 1.3 TON WORKHORSE

The tried and tested H-100 has operated under some of the toughest working conditions, earning its reputation as one of the toughest light commercial vehicles available today. The 1.3 ton H-100 is well known in the model range, and is popular with business operators in need of a versatile, reliable vehicle.

## QUALITY OF COMFORT

A comfortable workplace improves efficiency, so it's no surprise that the H-100 offers a new level of comfort. Extra seat and shoulder width for freedom of movement, a driver oriented console and car-like instrument cluster put comfort and control at your fingertips.

## ATTENTION TO DETAIL

Additional convenience details such as the forward-folding centre front seat, sunglasses and cup holders, together with a wide range of intelligently designed storage facilities, all combine to provide an exceptionally efficient and functional interior.

## GENUINE ACCESSORIES

The H-100's canopies are weather, fade and water-resistant, and are specifically designed to keep cargo protected from the elements. The canopy also features a lockable rear door to keep your cargo safe. With three separate styles – the half door, full door or nose cone/space saver – there's a canopy to suit your requirements.

## BULL BAR

Protect your front fenders and add a more aggressive look to your Hyundai with a stylish, approved bull bar. Our bull bars go through thorough fatigue testing, weld penetration testing as well as paint corrosion testing. They also carry a lifetime guarantee against any defect of workmanship.

## TOW BAR

The Genuine Hyundai H-100 Tow Bar is specifically designed to follow the form and function of the H-100. Each Tow Bar is manufactured to the same high standards as your Hyundai and has been rigorously tested. With a maximum brake-assisted trailer towing capacity of 1 250 kgs, your H-100 will become that much more of a workhorse.

# SPECIFICATIONS

Engine	
Type	2.6 D Euro II
Bore x Stroke (mm)	91.1 x 100
Compression Ratio	22 : 1
Max. Power (kw/rpm)	58 @ 3,800
Max. Torque (nm/rpm)	167 @ 2,200
Valve System	Single overhead camshaft, 2 valves / cylinder
Fuel System	Min-Max type governor, bosch type injection pump
Fuel type	Diesel
Fuel Tank (l)	65
Fuel Consumption*	10.2l/100 Combined Cycle
Suspension	
Front	Double Wishbone & Torsion Bar with ø 25mm Stabilizer Bar
Rear	Semi-elliptic Laminated Leaf Springs
